Email Address

Submit Button

Connect all inputs with the database using Contact Form 7. Fetch and display meeting schedules dynamically from the DB. Show the person's name and company name on the left, and the meeting date and time on the right. Each slot should be 15–20 minutes long. Hide already booked slots, and for 16 October display only available time slots to prevent double bookings.

When a user opens the meeting page, they should first fill out the form on a new page by entering their name and other required details. After submitting the information, the user can select an available schedule time from the meeting slots. Only available time slots should be displayed, while already booked slots must be hidden to prevent double bookings.

16 Oct | 12:15-45booked slots

A new meeting request has been submitted by [Name] from [Company Name] for 16 October 2026 from 12:15–12:45. Please review the request and choose whether to Accept or Reject the meeting.

REJECT

ACCEPTED

16 Oct | 12:15-45booked slots

Dear [Name],  
your meeting request has been approved. Your meeting is scheduled for [Date] at [Time] with [Company Name]. The meeting has been confirmed and added to the schedule. We look forward to meeting with you.

Once the admin accepts a meeting request, a confirmation email should be automatically sent to the user. The approved meeting should then be added to the calendar, and the selected date and time slot should be marked as booked to prevent duplicate reservations. The meeting details should also be updated in the database and reflected immediately on the dashboard. All booked slots and schedules should be displayed accurately, and users should only be able to view and select available time slots.

---

## Workflow Summary

- Step 1: User opens the meeting page and fills out the form using Contact Form 7.
- Step 2: User submits their details and selects an available 15–20 minute time slot.
- Step 3: The meeting request is stored in the database and sent to the admin.
- Step 4: The admin reviews the request and either accepts or rejects it.
- Step 5: Once accepted, a confirmation email is automatically sent to the user.
- Step 6: The approved meeting is added to the calendar and marked as booked.
- Step 7: The database and dashboard are updated immediately.
- Step 8: Booked slots are hidden, and users can only view and select available time slots.
